

Meta link enrolments

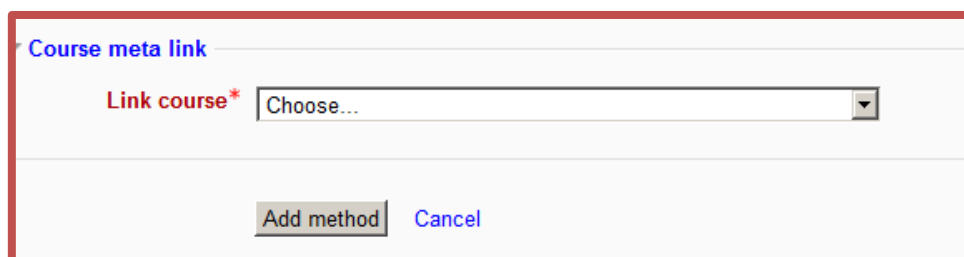

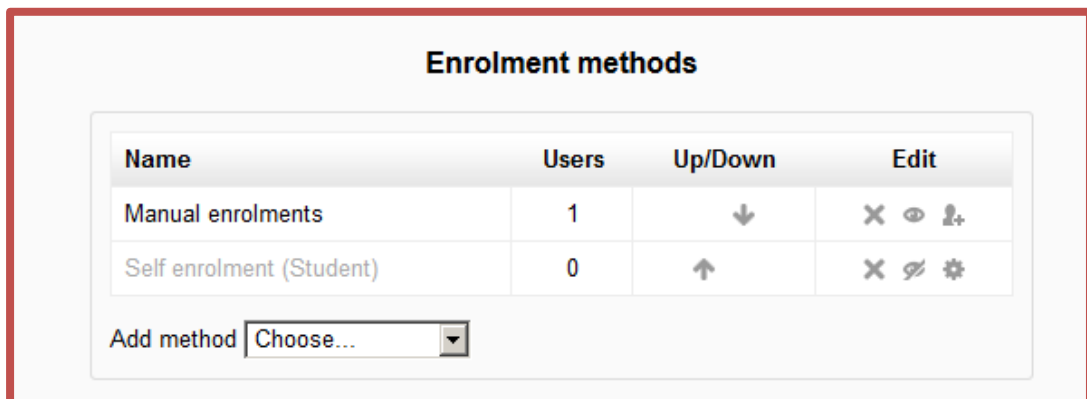

In order to draw enrolments from several child courses you will need to request a metacourse using the [Other course request](#) form. (Please supply all relevant information such as College, Campus, Semester).

Once your course request has been approved:

1. Enter your course, and click on **Users > Enrolment methods** in the course **Administration** block.

2. Click to on the arrow to *Add method* and 'Choose...' **Course meta link**

3. Open the drop-down menu and 'Choose...' the courses you would like to draw enrolments from. (You can only link to courses in which you are already a Teacher.)¹

¹ If you are not a Teacher in the child courses you will need to complete the [OFFICIAL UKZN Course request form](#), log out of Moodle and login again to become a Teacher in the relevant course(s) before completing this process.
